Download Quota Increase

From semester one, 2009, the download quota on your student Internet account will be increased from 200MB per month to 400MB per month.

The increase was decided by the Information Technology Services Policy Planning (ITSP) committee, in response to surveys of the student population that showed they would like more download quota for their studies.

The free student Internet account is provided via UQconnect, The University's own Internet Service Provider (ISP).

Regards,

Professor Michael Keniger

Deputy Vice-Chancellor (Academic)

Chair of the ITSP
